WAR AND TEA

On account of the war between Russia and Japan, we are pretty sure to see the price of Tea advance, as New England is dependent on Japan for a greater part of her Teas, and for that reason, we have bought a large quantity of Tea. The quality is fine and we shall not advance the price. Remember, we give checks with both Tea and Coffee and our premiums are meeting with fine success.

The above drain has been built after consultation with several engineers, experts in road building, who all agree that it was the necessary initial step towards a permanent remedy of the existing conditions that have made this part of Main street a nuisance in wet weather. It has been built in a thorough manner and on modern plans. In addition to the 3,573 feet of vitrified and 1,500 feet of unglazed pipe laid, there has been built in the drain seven manholes and twenty-one catch basins 4 feet in diameter and from 5 to 9 feet deep. These drains run from the Post-office, north on Main street to the residence of Mr. George Edes, down Belknap avenue to the river, and from Main to Cedar street.

Also on South Main street from the bridge to Wheeler's corner, so called, and on River street to the rise of ground.

On all of the drain in Main street two pipes have been laid, the clay and loom in the ditch carted off and the trench filled with stones and gravel. In doing the work

portions of Belknap avenue and River street have been materially improved. The severe weather prevented the entire completion of the work.

SCHOOL BOARD'S REPORT.

To the inhabitants of the Newport town school district:

In comparing the tables and other matters of this report with the financial report, you will need to bear in mind that the school report in regard to the attendance, number of schools and list of teachers, is made up from the registers for the school year ending July 1, while the financial report is made up to the end of our fiscal year, Feb 15.

We are pleased to report the schools in the district as being all in a prosperous condition, for the most part well supported by the parents of the pupils. Yet we wish to call the attention of some of the parents or guardians of pupils attending our schools, to the great evil of irregular attendance upon school by pupils when it can be avoided. We feel sure that if such parents or guardians would consider the great loss to pupils from irregular attendance, and the great detriment to the schools by reason of such irregularity, they would see to it that there was an improvement in this direction.

In some of our schools, the attendance was 96 per cent. of the membership, while in one school it was only 67 per cent. The average for the town was 87 per cent., which is too low for a town like ours.

The whole number of pupils registered during the year was 588; the number attending at least two weeks was 572; boys 291, girls 281. As many registered did not attend the whole year, the average membership was 462. That is, our schools averaged in membership every school day in the year, 462. From this number there was an average absence of 60 for every school day in the year. Some of this absence is, of course, unavoidable, but much of it might be prevented by a little care from those interested.

The number of pupils not absent nor tardy during the year was 19. The attendance under 6 years of age was 31; over sixteen years of age was 58; between 6 and 16 years of age was 483.

The average expense per pupil for the year, including salary of School Board Truant Officer, and all other items of expense except text books and supplies, was $17.85. The expense per pupil for the year for text books and supplies was $1.38. The tax rate for schools for 1903, was $4.56 per thousand dollars inventory, and for the new school house, the rate was $2.50 per thousand.

During the year the house at Guild has been painted outside, painted and kalsomined inside, and otherwise repaired. The house at North Newport has been painted outside and one room sheathed, and the house at Reed's has been painted outside, also the house at Kelleyville, besides many minor repairs in the different school houses. The school buildings outside the village are now in good repair, and with the completion of the new school building in the village, the school population of Newport will be well housed.

This is the Drug Store You're Looking for!

How do we know? We don't know. We only think; but we think hard and we base our thinking on the fact that we have told a lot of people that this is the drug store they were looking for—and they came, looked it over, traded with us, and believed what we said. That's why we said it to you. Come and see. It won't kill you—and we might be right in your case too.

F. E. LOVELL, PhG.,

APOTHECARY,

Richards Block, - Newport.
